**Inclement Weather Changes – Baseball and Softball Only**

In the sport of softball, changes to schedules due to inclement weather must be made in accordance with the UMAC Softball Guidelines I.B.1, 2 and 3. Any changes must be mutually agreed upon (I.B.1) first by the coaches and then directors of athletics.

In the sport of baseball, changes to schedules due to inclement weather must be made in accordance with the UMAC Baseball Guidelines I.C. Any changes must be mutually agreed upon (I.D.) first by the coaches and then directors of athletics.

In the event that a contest must be postponed less than 48 hours to the regularly-scheduled date and time for all UMAC contests and non-conference home games hosted by a UMAC institution, the following procedures should be followed:

1. The head coaches of the competing teams should agree to postpone/cancel the game if inclement weather or poor field conditions will make the contest(s) unplayable.
2. The head coach of the hosting institution should directly notify the scheduled umpires of the postponement/cancellation.
3. The head coach of the hosting institution should notify the UMAC Assistant Commissioner and include the supervisor of officials on the communication.
4. The UMAC Assistant Commissioner will postpone/cancel the game in the online officials system.

**NOTE:** Decisions to cancel or postpone a game should be made BEFORE the visiting team AND the officials leave for the contest. Institutions should not speculate about weather and reschedule contests more than 48 hours prior to the scheduled contest(s).

When choosing a date to make up a rescheduled UMAC contest, the next available date for both teams should be chosen for softball (I.B.3). For baseball, games must be rescheduled and attempted to be played within six days of the regularly scheduled date (I.C.). If possible, a game should not be rescheduled for a date before the regularly-scheduled date. This creates a challenge for the coordinator of umpires to find individuals who can work on a tight turnaround. If a game is desired to change prior to the regularly-scheduled date, the hosting head coach MUST first contact the coordinator of officials to see if umpires are available before notifying anyone internally or externally. The following procedures should be followed to reschedule a game:

1. Once the steps above have been followed, the two competing coaches and directors of athletics should agree upon a reschedule date and time.
2. The hosting head coach should immediately contact the supervisor of officials and the UMAC Assistant Commissioner with the date, time and location of the rescheduled contest.
3. The UMAC Assistant Commissioner will update the online officials system with the updated information as well as the conference website.
4. The hosting institution may then notify internal and external parties of the proposed schedule change.

**Inclement Weather Changes – Tennis**

In the sport of tennis, changes due to inclement weather must be mutually agreed upon by the two competing head coaches, but approval is not required from the conference office. Rescheduled contests should be made on the next available date. The hosting head coach or sports information director/director of athletics communications should notify the UMAC Assistant Commissioner of changes to a tennis schedule so the conference website can be updated in a timely manner.

*It is recommended that rescheduled tennis matches do not extend in to the week of the UMAC conference tournament unless the match has no implications on the seeding of the tournament.*
